In his first address as president of the British Association for the Advancement of Science, Sir William Bragg insists that man has a soul. That is like saying there is steam in an engine when it moves, physical life in a man running and talking. Science cannot PROVE the existence of a soul, but the proof isn't necessary.

No man can prove he isn't dreaming as he talks to you, and many a man dreaming has been certain he was awake.

Three things in the universe, matter, force, spirit. Matter and force may be one. At least they take different forms. Force cannot act without matter. And only spirit CONSCIOUSNESS can supply force to matter and make things better.

The earth was a wilderness until human beings, with the spark of consciousness, came to change it.

No "fortuitous concourse of atoms" could produce the left hind leg of a field mouse, much less the brain of an Aristotle.

When freedom of the will was discussed, Samuel Johnson said: "Sir, we know the will is free, and there's an end of it."

Men may say, "We know that the soul exists, and there's an end of that."

Walter Chrysler of the Chrysler and Dodge Companies, now the biggest independent automobile producer, contributes \$25,000 to the Hoover fund.

Alfred P. Sloan, Jr., head of General Motors, biggest automobile concern in the world, also contributes \$25,000 to Hoover. These gifts contain Republican ammunition worth more than \$50,000.

Republican spellbinders will ask, "Why do you suppose the biggest automobile men in the world are for Hoover?"

They will answer their question. "Because they want to sell automobiles and know that if Hoover President people will have money to buy them."

Governor Smith's friends can point to numerous highly prosperous Republicans who have abandoned their party to work for Governor Smith. They can say: "Do you think these men would do anything to interfere with property and their prospect of pilging more millions on these already hazy?"

H. G. Wells, one of earth's creative minds, writes a book, summing up his ideas of what the human race ought to be. Ten years hence he will write another book and sum up otherwise.

Planning to make the human race what it ought to be reminds me of children in the nursery planning what they will do when grown up.

They cannot know what they will do or want to do.

H. G. Wells has no clearer conception of men that will live a million years hence than the snail at his feet has of H. G. Wells. We shall be WHAT WE GROW TO BE and grow in accordance with the machinery put in us when we were originally wound up.

The three mainprings are anti-preservation, reproduction and ambition, ambition being the desire to OVN and to excel.

NAVY DIVERS TO RISK THEIR LIVES IN S4 'LUNG TEST'

COOLIDGE ON THE RANGE

CRACK—AND ANOTHER CLAY PIGEON BIT THE DUST! TWENTY-NINE OUT OF 37 PESKY WING SHOOTING AT Plymouth, Vt. Lucky for Governor Smith, Mr. Coolidge is not his rival—not a rod and gun enthusiast vote would go his way—the President being equally adept in fishing streams and on hunting fields as he has proven on his vacation in the West.

DIVERS WILL DARE DEATH IN S4 TEST

Washington, Sept. 7.—At risk of their own lives, navy divers will endeavor to escape from the flooded bulk of the submarine S4, lying on the ocean bed, 226 feet beneath the surface, to prove "the lung" the most effective instrument of submarine escape yet devised, according to Lieut. C. E. Monahan, submarine expert.

Determined to prove to submarine experts that his contribution to underwater safety is not a "bath-tub affair," Lieut. Monahan and his squad of deep sea daredevils, after a series of preliminary tests, will stake their lives on its practicability under the severest of conditions.

The new device, invented by Monahan, is a gas mask like contrivance that has been tested successfully at depths up to 116 feet, using a diving bell to escape from. In an endurance test performed at the navy yard today, Lieut. Monahan remained at a 30-foot level for 11 seconds without the slightest difficulty.

Next Wednesday the men will ascend from the bell sunk in the mud 120 feet below the surface of Chesapeake bay. This will be the first deep water test. The submarine rescue ship Falcon will come from New London, Ct., to aid in the work and stand ready in case of a difficulty.

From the successful termination of these tests the Navy Department will send the S4 now renamed the "test bulk," to the deeper waters of the bay for the final phases of the work.

Costa Rica to Rejoin League
Geneva, Sept. 7. (HNS)—Costa Rica will rejoin the League of Nations, despite the rejection of the country's request for an official interpretation of the Monroe Doctrine.

MA'S MAILED FIST FOR 'KID' ELOPERS

"I would far rather see my daughter dead than married to that man. She has broken my heart and I will do everything possible to have the marriage annulled."

This statement was made today by Mrs. Annie Dunn of 1524 Cambridge st., Cambridge, whose youngest daughter, Anna, 15, eloped with a Cambridge young man and was married at Nashua, N. H.

Anna and her husband, Fred Graham, of Auburn st., are 17 and 18 years of age. They are the two principals in the elopement which came to the attention of Cambridge police yesterday through the efforts of Mrs. Dunn, to have the marriage annulled.

According to the story given out today by Mrs. Dunn, the youthful couple journeyed to Nashua and were married there by a justice of the peace, August 21.

All will not be said with the youthful married couple. If Mrs. Dunn had her way, it became known today, "I will not cease until I have both of them put behind the bars, if that is possible," the irate mother of the girl said.

"My daughter has known this boy for five months and I have always forbidden her to go with him."

HULL SAYS HE'S DRY IN ALL FOUR WAYS
Speaker John C. Hull, candidate for the Republican nomination for lieutenant governor, rated by the Massachusetts Anti-Saloon League as its circular as but "fair" as a dry, today took exception to the statement.

"Let me further add that I am and always have been personally, privately, publicly and politically 'dry,'" the Hull statement read.

"How many of my opponents who appear to be turning somersaults in their endeavors to climb aboard the at-bay dry band wagon of the Republican party can say the same?"

DARING THIEVES LOOT BOYLSTON STREET SHOP

Thieves who smashed a window of 25 Grand, Box 25, Boylston st., early today stole women's clothing valued at \$100.

Treasurer Stole All of Baptists' Funds

Raleigh, N. C., Sept. 7. (HNS)—C. R. Carney, missing Atlanta treasurer of the Baptist Home Mission Board, "has again virtually all the assets, invested funds and trust funds" of the board, declared Dr. C. L. Madry, general secretary of the Baptist state convention and member of the board.

Dr. Madry said the shortage of Carney, who disappeared from Atlanta several weeks ago after telling friends he was coming to Raleigh, was known to be \$100,000.

He said he expected the amount to exceed a million dollars when the auditors had finished their check of Carney's books.

"I do not suppose any religious body in all history of Christianity has suffered such a staggering calamity," said Dr. Madry. "But having said this, I wish to assure our people there is the bright side to the whole thing."

"The Baptists of the South number more than 3,000,000 members scattered into 25,000 churches. The Baptists of the South have never defaulted in one single cent, and while we are plugging around words to express at this calamity we are not going to default now."

SHOTS FIRED IN BRAINTREE RUM RIDS

Lawrence's early morning drive in "Hill's Kitchen" on the outskirts of Braintree the entire Braintree police department augmented by a detail of Weymouth officers seized huge quantities of beer and hard liquor in four spectacular raids.

Scene of the widest confusion greeted the raiding party as it invaded the section which two years ago was the scene of the murder of John J. (Doc) Boston gangster.

Members of the district who in the past have been torn apart by feuding gangs of bootleggers and knife batties, organized hastily to prevent the raiders from carrying out their plans.

THROW BEER OUT WINDOWS
Men, women and children formed lines in a score of houses and hurled hundreds of bottles and kegs of beer from windows before the raiding parties smashed through the doors. Shots from police revolvers drove most of the bottle throwers back and four truckloads of intoxicants were seized before daylight.

The raids were staged near C. J. H. of Chief John H. H. of Braintree, assisted by Capt. Edward D. of Weymouth. Four months ago officers descended on three Grand St. homes while other officers were assigned to search other houses on the street to prevent the movement of liquor.

SEIZE SLOT MACHINES
At the home of Percy Richards, 22 Granite St., police seized a quarter of beer and several gallons of alcohol. The police seized slot machines, Donato Richards and Joseph Richards, 22 Granite St., yielded beer and alcohol.

While the Grand St. raids were in progress a detail of police entered the home of Rose Plumb on West St. and seized beer and whiskeys. Two slot machines, now found in the home of Peter Richards, were also seized.

At the conclusion of the raids the police announced that similar invasions of the section are to be made.

Weymouth COP TEAM QUALIFIES
The Weymouth police squad team, one of the best in the state, won the Weymouth Police Cup, national tournament for the best police team in the country for the final round in a message received in Weymouth today.

The Weymouth policemen, who have obtained numerous honors in local police contests, represent a police force of 25 men, with every other police team in the tournament to be represented at least 20 men.

Furthermore, although the police department of Weymouth has only 25 men, 5 of them are on the police team. They are: Sgt. Thomas Doyle, Dr. J. L. Bates, team captain; Foreman J. C. Butler, J. A. Hutchins and A. Palmer.

MISS TALMADGE
Connie's ex-husband has remarried and she is so glad that she will congratulate him.

Two seasons ago, when she was a young girl, she was taken into custody for the Portland case in connection with the murder of Henry Gustafson of Boston, who was shot to death on the deck of the schooner Edward B. Whelan, of which she was stewardess. Gustafson, before his death in the Maine General Hospital, told police that he invited two strangers aboard for a chat, and they attempted to rob him. When he refused to give up his money one of the strangers fired four shots into the stewardess' body.

Portland police broadcast an alarm for two seafaring men. When the pair appeared at Long wharf today they were taken into custody as Traffic officer Hugh E. Abner told me yesterday morning.

BURY 41 BRITISH DEAD
OF SUB SUNK BY RUSSIANS
Portland, Aug. 5. (AP)—The bodies of 41 British sailors and crew members of the submarine U-25, sunk by the Russians in the Baltic in June, 1919, were buried in the Naval Cemetery here today. The bodies were brought here Wednesday night on the cruiser Channel, which rescued them at Harval, to which port they had been transported from Russian waters on a merchantman.

EX-MATE WEDS CONSTANCE TO SAY 'GOOD LUCK'

Paris, Sept. 7 (AP)—Just as Constance Talmadge, American film actress, was arriving from New York on the boat train today, her former husband, Capt. Alexander von Tinnich, was being married to Miss Lella Savary, American heiress and the daughter of the Hon. Mr. Alfred Atton.

Miss Talmadge will congratulate her ex-husband and wish him joy. The ceremony took place in the City Hall of the seventh arrondissement in the presence of a few friends and relatives following a reception at the home of Mrs. Atton, sister of Princess Diana, and her husband, the Grand Duke Dimitri of Russia.

This match was called the outcome of a romance of the Scottish moors. It began eight years ago when Constance Talmadge, then a Standard Oil Company presented Capt. Muffet, then a member of the Scottish Guards, to Miss Emery at a home party.

"So the marriage had to take place today," exclaimed Miss Talmadge. "That was a strange coincidence. I imagine my husband getting more and more busy in Paris."

"I must look him up and congratulate him. I hope he finds lots of happiness," said Miss Emery.

Miss Talmadge, who was divorced in a London court and last received the news of her former husband's marriage with smiling cheerfulness.

New Trinity Replacing '3 R's' Is See, Do, Talk

Glasgow, Scotland, Sept. 7 (AP)—Abolition of examinations for high school boys and girls, except as tests for entrance to universities or in preference, was urged before the educational section of the International Association for the Advancement of Science today by Dr. Cyril Norwood, headmaster of Harrow.

"A properly supervised school could issue a certificate of satisfactory scholarship," he said. "The power to make such an award would imply a high standard on the part of the school and perhaps a higher level of efficiency than our state. In any system of examination we must think of the more able youth who suffer badly when they are forced by examination to an unnatural level. Education is no longer the re-

gion of the 'three R's.' It is now the territory of another trinity—the hand, the eye and the voice. It is the business of the primary school to teach the child to observe, make him do things and to instruct him in speech and song. Then the child will have more capacity for true happiness and intelligence."

AN OFFICE BOY DESCRIBES HIS FIRST FLIGHT

By BILLY BROOKS, JR.
Boston Evening American Office Boy

After reading in the papers about the aviator hopping the Atlantic, and reading Tusken Tommy in the comic strip of a New York paper, I decided to become a second Lindbergh.

I let my brother-in on the secret, but he laughed and said that I did not have the courage to go near an airplane.

"If I'm anything that will leave the ground, I'll pay for the flight," I said.

He took me up and said that he would see that I would fly in the near future.

The next day at the office I went upstairs to see my friend, Jimmy Gibson, and together we talked over the chances for flying. We decided to fly at the Boston airport.

Came the dawn of the eventful day, as the movie titles have it. I would die the death of a hero.

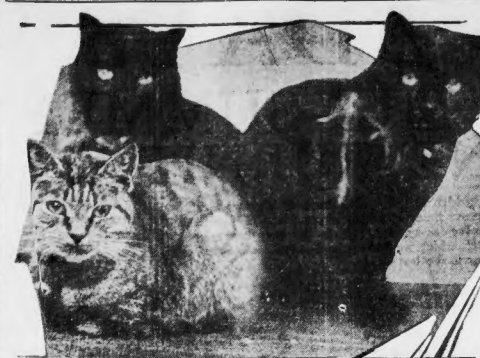

Long before the appointed time we were at the airport. In the excitement, I did not have to introduce and missed the pilot's car.

We hopped into the front cockpit of a biplane. When the airplane strapped ourselves in and proved to the end of the field and made a final take-off without the loss of a life. The pilot looked in the right seat and said the plane was all right.

I set my watch by the Custom House clock as I flew by. It was a grand and glorious feeling, just like riding in a safe, comfortable limousine and a detour.

We came back over the field to land, and boy, what a feeling as the pilot "dropped" the plane. It felt as if it were a feather.

PUT REAL "CLAWS" INTO WILL

FELINE TRIO CENTRAL FIGURES IN LEGAL FIGHT

A claim the will of Charlotte Sutton, of the Back Bay, providing \$3000 for the care of three cats she salvaged from the alleys, has started a legal battle by her kin to break her disposition of her estate. There are two black cats and a "tiger," the latter of which hoards itself on its collar.

As if they suddenly opened and you drove through! We make huge circles in the right, just skimming fence, and landed. Our first take was over and I said, "I'm glad, over my literary brother!" I then learned he didn't have any for it.

A few moments. Have you a garage in town? I said I did and he said I was a "drop" man. That's the way to it.

REACHES FOR HIS POCKET: NOW HE'S IN R. I. JAIL

Providence, Sept. 7 (AP)—A young motorist from Los Angeles reached for his right hand coat pocket early today when a policeman spoke to him and he held for the arrest.

Wayland D. Manchester, 31, was shown in his car in Haverhill at when Patrolman Murphy shook him. Police say Manchester had been drinking and reached for his pocket.

After a brief struggle the patrolman subdued Manchester and found a loaded pistol in his pocket.

STRANGLES BOY'S \$10,000 BRIDE 6, IN REVENGE IS FOUND IN STRAW HAT

New York, Sept. 7 (AP)—Four men were under arrest today charged with strangling to death a 15-year-old boy at Coney Island, in revenge of a husband or the family of his 15-year-old estranged wife, who was given by police today as the motive behind the kidnapping and murder of the girl's little brother.

The body of Salvatore Santonaro was found in the rear of his brother-in-law's house at Coney Island, wrapped in a burlap bag and covered with stones.

The four men charged with the homicide include Luigi Panella, husband of the boy's sister, Rosa, police said, admitted kidnapping the boy in an effort to force his wife's return, but blamed the other three men with the killing.

Police said Panella entered Salvatore and his eight-year-old brother, Thomas, in his home, intending to hold them as hostages for his wife's affection.

Salvatore's parents and police had been seeking the boy since Wednesday night, when he failed to return with Thomas from Panella's home.

New York, Sept. 7 (AP)—Twenty thousand dollars in bills which authorities described as the first of a \$100,000 extortion, was found in the straw hat of a man and a fellow agent were under arrest.

The agents were Edward F. Brown and Blaise F. Andrews, who were accused by Inspector W. R. Ransome, to have agreed to approve the firm's claim for a \$100,000 reduction if they were paid \$10,000.

Island justice revenue authorities of the proceeds, and investigators listened in on conferences between the agents and the attorney.

Brown and Andrews were arrested yesterday as they left Ransome's office where authorities said the two men were paid \$10,000 on account.

Andrews and he had no idea now the \$10,000 in bills ranging from \$10 to \$500 got in his hat. Somebody must have started it there, he said.

Both men were held under bail for hearing Wednesday after they were arraigned before a federal commissioner.

The handbook shown supplied the organized and drilled orators with material for 1928 talks to 203,726 people in four months, utility reports in the Federal Trade Commission's record show. An excerpt from this book quotes Frank Bohn, writer, as advising the consumer to use "the eyes of the spirit" and shun "the waste and inefficiency of political management." Bohn was paid \$100 a week by the power lobby for writing pamphlets attempting to discredit the Boulder Dam project. Professor Philip Cabot, of the Harvard School of Business Administration, which receives \$30,000 a year from the power interests for utility research, is quoted: "Certainly from the consumer's point of view the situation is ideal. He is protected by the power of the State against all form of extortion, and the whole energy of the electric power industry is set to work inventing methods for reducing costs, reducing prices, and increasing output."

BOMB WRECKS FLOODS SWEEP
RAIDER'S HOME THREE STATES

Chicago, Sept. 7 (AP)—The home of Police Capt. Luke Garrick was bombed early today. His wife, who is ill, was thrown from bed. Their seven-month-old granddaughter was buried under eight inches of plaster as she lay in her crib.

The bomb exploded in the vestibule of the first building in which the police captain lives. Capt. Garrick, a few hours earlier, had led a raid on the Minerva Athletic Club, where 61 men were arrested for gambling. He said he believed the bombing was in retaliation for the raid.

The raid was executed despite an injunction that forbade police molesting the place. Garrick had obtained new evidence that gambling was being conducted there.

Mrs. John W. Mackay died on Wednesday at the home of her son, Clarence Mackay, on Long Island.

During her long residence abroad, after the death of her husband, Mrs. Mackay's home, facing the Arc de Triomphe in Paris, and her later residence, Carlton House in London, were centers of intelligence. She delighted in receiving American friends, and especially in encouraging young Americans abroad.

Many, recalling with gratitude her kindness and hospitality, will hear of her death with sorrow.

The Southern Pacific Railroad asks permission to purchase the stock of the Northwestern Pacific Railroad, operating 475 miles of track, concentrating to give "adequate service to the public."

Doubtless the Interstate Commerce Commission will say "Yes." There should be only one railroad system in the United States, as there is only one post-office system. And, like the post

office, it ought to be operated for the benefit of the public, not for private individuals. The next best thing is to make the companies as big as possible, then watch and regulate them carefully.

BROKEN PARTY FACTOR IN FAVOR OF REPUBLICANS

By GEORGE H. MOSES

United States Senator From New Hampshire and Vice-Chairman of the Eastern Advisory Committee of the Republican National Committee

New York, Sept. 7.—I expect Herbert Hoover to have an unprecedented majority in the Electoral College. In several states I expect to see no pluralities such as those which Harvard recorded in 1920, or which were given to Coolidge in 1924.

This year, in a general sense, means we will come through with a factor.

CONNECTICUT—Why waste words? Put the state in the Hoover column. J. Henry has never failed us.

LOOKS FOR SURPRISE

DELAWARE—I am not undisturbed of the family difference which have arisen over politics this year in the Blue Hen, Commonwealth, but I back the brothers, sisters, nephews and aunts who are on our side.

FLORIDA—This state is a political mine. On form the Democrats should carry it, but they cannot carry it this year by default. In Florida we find all the signs of Democratic rebellion and, believe me, we intend to intensify these symptoms.

GEORGIA—We have two congressional districts. Georgia for our presidential candidate for Harding in 1920 and for Coolidge in 1924.

I chose no railroads in this important Commonwealth of the South but I am sure our Democratic friends will be charged when they read the returns from Georgia on election day.

IDAHO—This is Senator Borah's home. Borah never repays me. In the hands of the fact that he read the returns from Georgia on election day.

ILLINOIS—Cassius divided all over there. Cassius divided all over there. Cassius divided all over there.

INDIANA—Hoover has been here for some time. Hoover has been here for some time. Hoover has been here for some time.

KANSAS—Hoover has been here for some time. Hoover has been here for some time. Hoover has been here for some time.

KENTUCKY—We carry Kentucky soundly. This is a year of political change. Give Kentucky to Hoover. Then we will take it.

LOUISIANA—Hoover, from my point of view, is a Republican.

MAINE—This state, where I was born, will speak next Monday and its votes will be for Hoover. As Maine goes, so goes the nation.

MASSACHUSETTS—Hoover has been here for some time. Hoover has been here for some time. Hoover has been here for some time.

MICHIGAN—Hoover, that's all!

MINNESOTA—We are not without our problems in Minnesota. They are disappearing, however. Hoover's acceptance speech and his speech at West Branch, Iowa, have pushed our Minnesota difficulties far into the outer darkness. I claim Minnesota.

MISSISSIPPI—Another Louisiana, and another for us.

MISSOURI—This home of the Missouri mule, and this year the scene of a political horse race, ought to win it, and I think we will.

MONTANA—A community of mixed political emotions. Today I frankly think the state is doubtful.

NEBRASKA—Again swinging strongly to its ancient Republican moorings, and I believe certain to stay so.

NEW HAMPSHIRE—Forget it! New Hampshire—From this state today comes much cry. In November the Democrats will find they have gathered little wool.

NEW JERSEY—I have little personal knowledge of this state.

NEW YORK—I have little personal knowledge of this state.

NEW YORK—I have little personal knowledge of this state.

NEW YORK—I have little personal knowledge of this state.

NEW YORK—I have little personal knowledge of this state.

"Al" Won't Carry New York, So Says "Pussyfoot"

William E. (Pussyfoot) Johnson, militant dry voter from Governor Smith's own State, said today that the Democratic presidential nominee would not carry the State of New York in the coming election.

"If I were given to betting I'd bet a crate of pills against that Hoover will carry New York," he said. "I'm a 'Pussyfoot' myself, but I never did carry New York anyway; he carried two or three counties in New York City. That's what made him Governor."

Personal knowledge of conditions in this State, but such information as I have received and assurances given to Hoover when he passed through the State, led me to believe we shall have it.

NEW YORK—The great prize in the presidential free-for-all. I have little reason to doubt that Hoover will carry it, and until the wise boys who think they're better odds than the odds of the State, I shall have no misgivings about New York.

Hoover, I shall not mind to carry this State upon my conscience and to stand with the most illustrious of the presidential candidates.

NORTH CAROLINA—If the political example of my gifted friend from the Carolinas, I think the State of North Carolina, is sufficiently close to the State, it has been in the past, we have every reason to look upon this State with indulgent hope.

WATCH NEW YORK

NORTH DAKOTA—I pin my faith on Senators Frustre and Nye, both of whom are supporting Hoover.

OHIO—Ireland, out this year with the leverage on one side, I claim it. I claim it. I claim it.

OKLAHOMA—Ireland, out this year with the leverage on one side, I claim it. I claim it. I claim it.

PENNSYLVANIA—I can think of no better place for the exercise of Hoover's genius. The more we know in Pennsylvania, the less he can win there. He will have his labor for his pains.

RHODE ISLAND—Tennessee; but we have a way of working out our trouble, and I think the State will go for Hoover.

SOUTH CAROLINA—Ireland, out this year with the leverage on one side, I claim it. I claim it. I claim it.

TENNESSEE—In a ferment of political passions, the reaction of which, I believe, will be 12 electoral votes.

TEXAS—Promoted to us by these high-minded Democrats who wish to preserve the integrity of their party.

STILL FAITHFUL

I promise which I wish, rather than hope, will be fulfilled.

UTAH—Faithful in 1912. It will be so now.

VERMONT—Why waste printer's ink?

VIRGINIA—Apparently fruitful for Hoover, however, now is time for a fight before November.

WASHINGTON—Surely for Hoover.

WEST VIRGINIA—If this State would vote a native son, four years ago, why should anyone else? Well, we'll stand the side of Hoover.

WISCONSIN—Ireland, out this year with the leverage on one side, I claim it. I claim it. I claim it.

WYOMING—I have seen no Democrat sufficiently impudent to claim this State for Hoover.

YORK—I have little personal knowledge of this state.

YORK—I have little personal knowledge of this state.

YORK—I have little personal knowledge of this state.

YORK—I have little personal knowledge of this state.

SUPERTWIST

means greater comfort and mileage in

GOODYEAR TIRES

It is a real pleasure, as Goodyear dealers, to tell you, and show you, how SUPERTWIST construction adds so tremendously to your riding and "pocket-book" comfort when you buy Goodyear Tires.

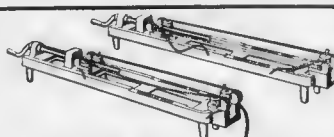

We've already told you the "tired tires" story—how tires of weak inner construction become prematurely tired under the terrific, continuous flexing of rough going so that they collapse long before they have delivered their paid-for mileage.

That's because they're not built with SUPERTWIST, the supercords used exclusively in Goodyear Tires. First of all, these

rubbery, sinewy, tough, vibrant cords stretch farther than ordinary cords. But, of equal if not greater importance, they go right back again, keeping the tire in shape and stability, adding greatly to miles delivered.

"Tired tires" deliver anywhere from 10% to 25% less mileage than you pay for. Goodyear Tires, built with SUPERTWIST, give you that extra difference—and more.

And yet Goodyear Tires cost no more than tires not built with SUPERTWIST. See the low prices listed on this page—for real Goodyears, mind you, built with mile-making SUPERTWIST.

COME, SEE THE MILES STRETCH

Any one of us will gladly demonstrate the SUPERTWIST principle which stretches the miles and the value of your tire dollar. This machine makes it clear. Come see it—and get its money-saving message.

'BREAD BASKET' STATES GO TO HOOVER

REVOLT OF FARMERS APPEARS BROKEN, SAYS ANALYST

By CHARLES N. WHEELER

Chicago, Sept. 7.—With the exception of Wisconsin Hoover's stock has risen slightly in the past few days in the mid Western States.

After some long, dirty "climb to the clouds"—you gain new respect for the stamina of NEW COLONIAL GAS. Only a fuel entirely free of the "borderland" mixture could stand the gaff of that endless, uphill grind—without knock, sputter or miss.

Here is power in overflowing measure. Alertness and agility in the getaway. Sustained torque that keeps your car in high gear beyond your usual "second-speed" point. And complete freedom from that knocking, carbon, fouling and sluggishness—which you used to lay to the engine, but which NEW COLONIAL GAS proves was caused by the "borderland" present in all ordinary gasoline.

You'd willingly pay more for NEW COLONIAL, get its extra quality demands NO extra price.

Flock of Budding 'Greats' on Coast

By DAMON RUNYON
NEW YORK, Sept. 7.—My famous West Coast operative, T. O. otherwise Mr. Hap O'Connor, has returned to duty in a penitent frame of mind, and is at work again under probation.

It may be recalled that I was compelled to suspend Mr. O'Connor indefinitely because of his failure to report an scandal of any importance from the West Coast for several months.

I have since learned that Mr. O'Connor was out looking for a big story, and he found it. The real victim of the coast would seem to be Harry Ransom, the big leaguer, who was with Connie Mack's Athletics in 1926. He is still winning big games for the Athletics, and he is still winning big games for the Athletics.

Among the big league prospects who are being watched by the Athletics are Bert and Schumacher, who are being watched by the Athletics.

Below Cunningham, right, is a promising right hand pitcher who goes to the Chicago Cubs. Jimmy Jones, the young Oakland second baseman, who is supposed to have been purchased by the Yankees along with John L. Lewis, is also being watched by the Athletics.

THE two San Francisco teams, the Athletics and the Athletics, are both being watched by the Athletics.

RAY KEATING, who used to pitch for the Yankees as far back as the old hippo days, is still winning big games for the Athletics.

Keating, a right hander, had won 11 games and lost 7 when Mr. O'Connor wrote. He must be in baseball matter of 18 or 16 years, or so, but he is still winning big games for the Athletics.

Last Hole at Brae Burn Not Unfairly Laid Out

OLYMPIC STARS HAPPY TO SEE HUB ONCE MORE

LONG DRIVE TOUGH FOR MANY

Much Discussed Hole Not as Difficult as Others at Brae Burn

By BILL GRIMES

Inquiries pertaining to the 15th hole at Brae Burn are rapidly becoming stereotype, if not monotonous.

"What do you think of the 15th hole?"

"Did you get over the bunker?"

"Do you think the carry is too severe?"

"What did you use for your second shot?"

Without exception every player, who has visited Brae Burn since the hole was laid out at the finishing hole, has been asked these questions.

There is no denying the fact that the 15th hole calls for a real test of skill. From the middle of the tee, a carry of 200 yards and a ball must be hit a four foot off the ground to clear the trees at the 215-yard mark.

"Twixt Tee and Cup"

By BILL GRIMES

The Brae Burn Country Club is doing everything within its power to impress upon the galleries, which will follow the championship next week, to conduct themselves at all times as not to in any way, interfere with the players.

"DON'T RUN" signs will be posted all over the course, and if the gallery will obey the marshals every player in the field will have an equal chance, otherwise some are going to suffer.

The marshals are doing everything within their power to impress upon the galleries, which will follow the championship next week, to conduct themselves at all times as not to in any way, interfere with the players.

George Houston, the New York State amateur champion, who went to the semifinals two years ago at Ballpark, has been, and still is, troubled with shins.

George has been playing so often in the rain this season that he has developed this shin trouble, which when acute is accompanied by a fever. He played nine holes at Brae Burn but quit when the rain started.

Bobby Jones put in about 15 minutes of practice in his last workout. He did not bother to change his clothes, in spite of the rain. He devoted all his time to practicing his iron shots.

George Von Elm predicts that the boys are going to have plenty of trouble next week. George played a round with Jesse Lauffert, and although he was out in 86, ran into trouble on three holes coming in and did not get out of the pen of the clubhouse until the boys were going to leave.

Mr. McKim's story, "The Day After Tomorrow," is a story of a man who has been in the rain for a long time. It is a story of a man who has been in the rain for a long time.

"STYLE TWINS"

You Can't Tell Them Apart

I paid \$10 at retail for the original of this hat. It was made by a High Price Manufacturer and sold by a High Price Retailer.

Crown 5 1/2 in., Brim 2 1/2 in., Welt 1 1/16 in., Band 2 1/2 in.

I reproduced the exact "Style Twin" of this popular high price hat at \$3.50. The block and flange are the same and the measurements of the crown and brim are identical.

"Twins of the Most Expensive Styles Seen in the Most Exclusive Shops"

My Style Policy

As Far As Style Goes

As Far As Quality Goes

is to make a "Style Twin" of every exclusive Style Leader shown in the high price shops. Every new high price style introduced for \$8, \$10, \$12 or more, is Public Property just as soon as it is shown in a window, or sold in a store. My Policy is to buy the hat and duplicate the style exactly for \$3.50.

I have asked all our customers in every city in U. S. A. where we have a store, to send me by air, wire or mail any new high price style they want reproduced for \$3.50.

When you remove the Price marks, Trademarks, Hallmarks and Earmarks, they are "Style Twins"—you can't tell them apart. Some people think that if they pay more money, they get more Style, but I'll challenge anyone to look at any crowd of well dressed men and tell what they paid for their hats.

My customers don't want a "\$3.50 Style". They want a \$10 Style for \$1.50. That's why I'm reproducing high price styles for \$3.50.

I've got more than a million satisfied customers and I know I can satisfy you. As a matter of fact, I don't believe anybody has any trouble about the wear of a good hat. The trouble is, it isn't half worn out when it isn't fit to wear.

The worst looking hats you see on the street at the beginning of the season are last year's high price hats that the owners are trying to wear out their money's worth.

Retired Undeclared World's Heavyweight Champion
CHAPTER VIII

ONE of the keen regrets of my fighting career is that my father did not live to witness my winning of the heavy weight championship of the world.

He was a hardworking man, with a keen sense of humor and would have been proud to see me in the training camp prior to a championship bout and the thrilling moment of my victory.

It was when Corbett won the heavyweight championship that he brought the matter on to New York. Among other things, he said that he had heard from the Brooklyn bridge broker that he had been in the ring with me.

As they were leaving, Brodie asked Corbett, who had just beaten him, introduced his father who asked Corbett, who had just beaten him, "Ah, you're the man who jumped over the Brooklyn bridge," the address Brodie.

"Well, no I didn't jump over the bridge," the heavy Brodie replied. "I jumped OFF the bridge."

Corbett was a little better a little father came back with this verbal

As to why I am not the "killer" in the ring I will go back to my boy-

hood days to seek the explanation.

As an ordinary American boy with the usual boyish dreams and ambitions, but perhaps it is not so well known that I had a heavy heart.

My father was a very kind and loving man, but he was a very strict disciplinarian. He was a very strict disciplinarian.

It was, "Never hit a man when he is down."

Years after when I began to mount the ladder of ring triumphs, I began to realize that my father's words were not just words, but a lesson.

I then early made it my plan to remain always cool and collected in my fighting career, and to refuse to lose my head in the pinches.

There was a time when I was in the ring with a very strong contender, and I was in a very strong position.
